# HOLLOWELL PARK, ROCKY MOUNTAIN NATIONAL PARK, COLORADO

JUNE 17, 2008 | ANNA

Today (June 17, 2008) we did a day hike in the Hollowell Park area (eastern side) of Rocky Mountain National Park.

*Hollowell Park trail*

*Waterfall in Hollowell Park*

We also drove up to the highest point of highway 34 in the national park (12,000 feet) and down the western side to Grand Lake.

*Dandelion*

Asters

We were disappointed to see that the bark beetles have killed many pines on the western side of Trail Ridge. (And we hear they're headed our way.)
