# ARDENWOOD HISTORIC FARM

NOVEMBER 13, 2016 | ANNA

**On Saturday, November 12, 2016,** Dick and I visited Ardenwood Historic Farm in Fremont. It was a little field trip we worked in on our way to the main event, of the day: the last EVHS Marching Band competition of the 2016 season.

An interesting discovery at Ardenwood was the existence of Monarch butterflies in the nearby eucalyptus trees; usually they winter in coastal locations like Monterey and Pacific Grove.
