SPRING ANIMALS AND PLANTS AT DEER HOLLOW FARM

MARCH 21, 2016 | ANNA

On Monday, March 21, Dick and I were at Deer Hollow Farm weeding, amending the soil, and planting in the garden. It was a lovely morning and the seven people helping out made short shrift of the work to be done.

While we were there I took a few photos of some of the animals and plants that were also enjoying the spring sunshine.
