MIRANDA'S GRADUATION FROM SJSU: MASTERS IN SOFTWARE ENGINEERING

MAY 26, 2025 | ANNA

Last Thursday, May 22, 2025, Miranda graduated from San Jose State University (SJSU) with a masters degree in software engineering. We are so proud of this, and Miranda's many other accomplishments!

Miranda's last two graduation ceremonies were a bit disappointing, so we're happy to report that this one came off without a hitch. Her West Valley graduation in 2020 was a virtual-only ceremony due pandemic restrictions, and the extreme heat when she graduated from UC Davis prevented her from making it through the line and up to the stage. That year all the graduates and attendees were threatened with heat-stroke.

Fortunately this ceremony was very "ordinary," that is to say successful and fun. Here are a few photos from Miranda's special day.
